

## Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and annoy me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nerve."

### MORE FROM H. G.

Weather very hot.

Water is getting off of the low places.

Little R. R. H's. letters are short but sweet.

We have had very hot sunshine the last twelve days and the roads are again dry and dusty.

What can be the matter with Bill and Dusseldorf. They must be sick, for they have not been delinquent before.

We had better keep Guy in the Ed. chair. Think the paper was decidedly better last week than for some time past. Rah for Guy!

Mr. Cobb, the section boss, is having a great deal of sickness in his family. His wife has been sick quite a while and his children are also sick.

The revival conducted by Rev. J. K. Pope at Hills Chapel has been productive of much good. Many of the hardest sinners have been converted and have joined some church.

This good haying weather is much needed as there is much hay to save. Cohen and Youngblood will start their hay press this week. Anyone who wants their hay baled will do well to call and see what fine bales they make.

B. Y. Trotter is building a fine gun house in H. G. and is going to put in the latest improved guns and machinery. When completed it will be the best in or about H. G. Mr. Trotter is a good gun man and we wish him much success.

The growth of cotton is checked. The excessive heat is causing it to open very fast. The first bale was put on the flat at H. G. the 20th. inst., by Cohen & Youngblood. It was a very large bale weighing nearly 600 lbs. How can any community get along with out such progressive men.

Drs. Taylor and Parker are kept very busy now. They have as many as fifteen calls a day, and many of them from long distances. Dr. Taylor is in feeble health and Dr. Parker has most of the riding to do. Hope the sickness will soon cease and give the Drs. and people a rest.

T. L. Mathews, of Clarendon passed through H. G. recently enroute to Lamberton to see after his farm in that vicinity. He reports White river high and rising. The farmers on the river and lakes were fearful that their crops would be caught again, but as the heavy rains have ceased their fears have banished.

Moses when he was 120 years old went up to Mt. Nebo and there he died. The body of Moses, God translated into a valley of the land of Moab over against Bethpeor, and there buried it. Nor doth any man know the place of it unto this day. The Israelites mourned for him thirty days. Margaret says we have buried the wrong Moses again. Now we know the above from the Bible, and it is not the Moses in question we will leave it to the P.D. Margaret the Margaret is a very good woman, and we wish her well.

Little Red Riding Hood in last weeks ARGUS said that Mrs. John Turner died of congestion at her home near Turner, we know of only one Mrs. John Turner who lives at Cypert five miles from here, and she is very much alive, We suppose there is some mistake either in name or place.

What is our country coming to? We tremble when we think how the good name of our fair Southland is being tarnished by the murders, lynchings and similar crimes that are being committed. Truly, "The Devil is as a roaring lion going about seeking whom he may devour."

September the 5th. will be an important day in Arkansas. Then the voters will decide whether they want whiskey or not. Rum is the awful enemy of our loved country, because it ruins the home and the home is the bulwark of our nation. Let us all do all we can to stop this terrible evil. We can stop it if we only try. Now shall it be for license or against license? For license means for whiskey or that you want whiskey sold, and against license means that you do not want whiskey sold. Some may say that we need the revenue that accrues from the saloon. You, dear reader, surely do not want money that is the price of blood. That is what the whiskey revenue is. Others may say that whiskey will be sold anyway, but it will not if you do your whole

duty in electing men to office who regard their oath as sacred. Let us all do our part and see that the law is enforced, for a law that is not enforced is no law. With best wishes to all I'm only,

We will answer Marguerites question as best we can. We are not very well versed in ancient History, but according to our way of thinking, the largest number killed and wounded in one battle was at Gettysburg in the war between the North and South, on July 1st. to 3rd. 1863.

When a preacher gets up in the pulpit and says that the mothers of a community are no better than "Indian squaws" he should be cast into the jungles of Africa, there to roam as an exile the rest of his life. A preacher is a teacher of God's laws and should be a Christ-like man in words, in actions and in teaching the great truths of the Holy Bible. He should do it in a Christ-like way, not in such an insulting way that would cause the Devil to frown at him. When any preacher uses such language, he has forgotten that he had a mother and has ceased to be a power in the cause of Christ.

The making of Dewey's sword has been awarded to Tiffany & Co. of New York. It is to bear the following inscription: "The gift of the nation to Rear Admiral George Dewey, U. S. N., in memory of the victory at Manila Bay, May 1st, 1898."

## TO REDEEM THOSE THOUSANDS OF ACRES.

—O—

Situated in the Bayou DeView and Cache river basins to the west and north-west of Brinkley are thousands and thousands of acres of fine farming country, as fertile and productive as the valley of the Nile—but it overflows and continues to overflow and as it is, is nearly worthless to all intent and purposes.

For several years the owners of land in the overflowed district have been discussing the advisability of forming a Levee Taxing District and redeeming their valuable lands from the water waste. It is generally conceded that the cost of the undertaking would be small when compared to the great amount of valuable property that would be redeemed by the levee.

In order to ascertain the will of the people and determine whether or not those who would be affected by the move are in earnest and really want to see the levee constructed, the ARGUS would suggest that all who are interested would attend a meeting for that purpose, to be held in Brinkley at 11 o'clock a. m. on

SATURDAY, SEPTEMBER 3, 1898.

Don't forget the date.
